PROFILE

I am a fullstack web developer who has been involved in the tech industry for 8 years. I love creating products from scratch and getting involved in other areas to better understand how to solve problems.

EXPERIENCE

MAKER

NINOGAMER.COM

2021 - Present

- Built a platform that helps creators sell their merch with no hassles
- Built using NextJS, React, TailwindCSS, MongoDB, Stripe and Cloudinary.
- It's been built iterating with creators. I code this as a side project.

SELF EMPLOYED

Molus.co

2019 - Present

- Solving problems using tech. (Code, Audio, Video, Streaming)
- Helped startups planning projects and coding.
- Helped creating a community of creators. That's how Nino Gamer was born

HEAD OF TECHNOLOGY

VerneLabs, Mexico City

2017- 2018

- Built Apps/Integrations for Zendesk Help Desk Customers in Latam
- Give Talks about dev tools and CX for Zendesk Community in México
- In charge of all tech related issues of the company.

EDUCATION

INSTITUTO TECNOLOGICO DE CHIHUAHUA II

Computer Systems Engineering Degree 2014

PLATZI

I started as a student learning web development.

Worked for the company 3 months in Bogota D.C.

2014

ANYTHING ELSE

- I had more tech jobs before the ones listed. Please check my linkedin profile.
- I attended to many many tech events since 2013. As a participant, organizer and mentor. I love communities! Check magiobus.com/eventslist for more.
- I like performing magic tricks, it helped me a lot with IRL social interactions.
